Welcome to Flourishing Destinies - Sustaining Continuity for Positive Change

In Flourishing Destinies: Sustaining Continuity for Positive Change, our design combines the Appreciative Inquiry worldview with technology. Through Appreciative Inquiry, we discover and amplify the best stories of sustaining positive change throughout implementation, and the technology platform captures, disseminates and extends these stories of flourishing destinies across the globe, supporting and building capacity virtually.

The online workshop discussions are available on our website at www.flourishingdestiny.org under the 'participate in the workshop'. You can contact us at info@flourishingdestiny.org.

welcome to flourishing destinies

What does it take to not only sustain the positive energy and the great ideas that come out of a conference or workshop, but to take them to the next level?

How do we move beyond sustaining the original momentum of the experience so that it continues to spiral upwards to a point where we can say we are flourishing?

Our virtual workshop is part of the exciting Business as Agents of World Benefit (BAWB) Global Forum and we invite you to participate in this exploration of how to create "flourishing destinies" with us! Our online asynchronous workshop will be one of many exciting virtual workshops taking place as part of the Global Forum and will explore the topic "Massive Innovation: What Do We Know About Change at the Scale of the Whole?" Within this theme we are inquiring into what sustains positive continuity/momentum for change that leads to massive innovation.

Please join our BAWB Global Forum 2009 online workshop called "Flourishing Destinies: Sustaining Continuity for Positive Change".

opportunities to join the dialogue

Our exploration of how to create "flourishing destinies" will be an ongoing dialogue over the months to come. The following two conferences are specific opportunities for you to connect with this exciting exploration.

2009 Global Forum - Business as an Agent of World Benefit

The Global Forum runs from June 2 to June 5 and includes inspiring keynotes, high-level panels, interactive workshops, facilitated dialogue sessions and engaging evening events. This year's theme: **Manage by Designing in an Era of Massive Innovation.**

This online workshop "Flourishing Destinies: Sustaining Continuity for Positive Change" will explore "Massive Innovation: What Do We Know About Change at the Scale of the Whole?"

Identifying our Strengths

Reviewing the Stories, Wishes and Dreams

As you read the stories and the dreams about how these flourishing destinies were created, what common themes are evident to you? What are some of the collective experiences? What could you say are the strengths, or the positive attributes that cross the stories? What are the pearls of implementation wisdom? You could call these strengths or positive attributes the "positive core."

Please identify the "positive core" of the stories and dreams of "flourishing destinies".
